VERSE 1

D C#7

When sorrow comes to kill the light

F#m A

I find your word is ever shining bright

D C#

When I am tempted to despair

F#m A7/E

I lift my eyes and find you there

PRE

From your lips flow words eternal

F#m A7/E

At your voice the shadows tremble

D C#7

I will wait for you/I will wait for you

F#m A7/E

CHORUS

D C#7 F#m A7/E

I will wait for you...

VERSE 2

Day by day, through faith and doubt

I will remember how you sought me out

Forever faithful, forever true

Against the ages my hope will prove

VERSE 3

Not to me, but to your name

Be all the glory, honor, power and fame

In every trial, in every fight

It is your presence that brings me life
